Bookstore Website Administrator Manual

Welcome to the administrator manual for the Bookstore website. This manual provides instructions and guidelines to help you manage and maintain the website efficiently. As an administrator, you have access to various features and settings that allow you to update, organize, and optimize the online bookstore. Let's get started!

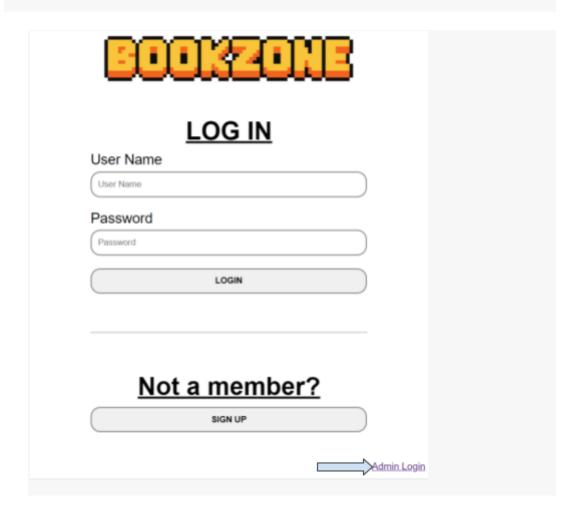

Table of Contents:

- Accessing the Admin Panel
 - Inventory Management
 - User Management
 - Log out

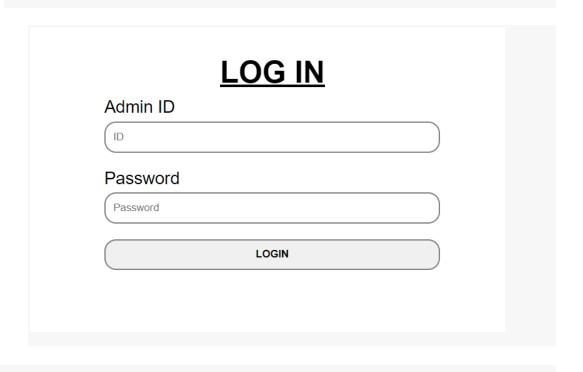

- 1. Accessing Admin Panel:
 - Visit the website's homepage
 - Locate the "Log in" button and click on it.

 Please locate the "Admin Login" which can be found on the bottom right of the webpage and click on it.

 Please fill in your username and password to log in into your admin account.

2. Inventory Management

 After logging in, you will be able to see a prompt which shows you different options. Please click on 'Inventory Management'.

You will be redirected to a new webpage.

 Please enter the different important information such as the ISBN, Title, Author, Price, Genre, Cover and Description. When you are done please click 'submit'. A new Item or newly edited item will then appear on the database.

3. User Management

 After logging in, you will be able to see a prompt which shows you different options. Please click on 'Inventory Management'.

You can see the users that are stored inside the database of this website.

4. Log out

 When you are done with your business and want to exit the administration account. You can log out by clicking on the 'Log out' button.
